OIT Staff Directory

About OIT

Under the guidance of the Associate Vice President and Chief Information Officer (CIO), OIT is organized into five major units reporting to four Directors. OIT is in the Division of Business & Finance.

[OIT Staff Directory](#) ►

Al Speckens

Interim Deputy CIO & Interim Director of Technology Services

Technology Services ensures consistent management of server hardware and operating system software across the variety of platforms in use, as well as administering all computer room and telecommunications operations.

Tawn Anderson

Director of Learning Services & OIT Communication

Learning Services supports academic technology and audio/visual equipment in classrooms, conference rooms, and event spaces. In addition, Learning Services offers media services to the campus including a full-media studio, training for student assistants, and serves as the production team for Commencement. They work closely with OAT for classroom technology, training, and ongoing improvements in support of faculty.

John Rezendes

Director of Information Services

Information Services is responsible for all administrative applications and database systems on campus. Information Services also works with other areas of OIT on projects that require integration of the Technology Services, Client Services, and Learning Services divisions. We also provide consulting services and project management services for all enterprise software implementations on campus.

Erik Copland

Director of Client Services

Client Services provides technology support to students, faculty, and staff, including staffing the Technology Support and providing hardware and classroom support, and administering the campus computer labs.
