College of Science

Degrees and Programs

- Bachelor of Science in Computer Science
- Minor in Computer Science
- Program Learning Outcomes
- Class Schedule

Computer Science Homepage ▶

Discover what you can learn and where a computer science major can take you.

Do you like puzzles? Problem solving? Math? Science? How about working in teams? Computer Science might be for you. Computer science majors will use their skills in technological areas such as computer networking, image processing, database design and development and artificial intelligence. Students focus on problem solving, taking into account the capabilities of the technology and available resources.

Interests

- Software engineering
- Web sites
- Cybersecurity
- System administration
- Artificial intelligence
- Internet
- e-Commerce
- Programming

Learn

- Programming skills
- Algorithms and data structures
- Analytic techniques
- Ethical issues
- Computer operating system principles

Go!

- Systems analyst
- Programmer
- System administrator
- Network administrator
- Software engineer
- Database manager
- Computer security specialist
- Web site developer
- Computer game developer

"The small size of our department allows the faculty to invest time in each student and build lasting professional relationships that help to propel us into our future careers. "

BRANDON HALPIN

Computer Science Student

Location & Contacts

Address:

California State University, Stanislaus
Department of Computer Science
One University Circle
Turlock, California 95382

Kyu Koh	667-3846	kkoh@csustan.edu
Xuejun Liang	667-3169	xliang@cs.csustan.edu
Melanie Martin	667-3787	mmartin@cs.csustan.edu
Ivan Mendez	667-3185	imendez@cs.csustan.edu
Sargon Peyour	667-3185	speyour@csustan.edu
John J. Sarraillé	667-3345	john@ishi.csustan.edu
Megan Thomas	667-3585	mthomas@csustan.edu

Career Opportunities

Computer science majors can pursue careers in areas such as:

- Information technology consultancies
- Information technology service providers
- Information technology departments for:
 - Telecommunications
 - Aerospace and defense
 - Financial services
 - Retail
 - Healthcare
 - Manufacturing
 - Agricultural
 - Public sectors
